INTERNATIONAL DRAGON CLASS

rfbyc

WHY DRAGONS?

The first Dragon arrived at RFBYC in 1950. Since then, it has remained a firmly established fleet at the Club. The Dragon is a highly competitive class due to its Rule Book setting out the precise detail of construction, rigging and equipment - and its classic racing design. Once a sleek wooden craft, it has adopted developments in materials and technology and so continues to be raced worldwide by amateurs and professionals.

OUR FLEET

At RFBYC we have over twenty Dragons registered with most of them sailing regularly.

Opportunities to crew on a Dragon are many. It takes a helmsperson and two to three crew to race. No special strength or agility is required - just fit and able, will do! Whilst some sailing experience helps, training sessions are also provided during the season. Many current and past Dragon sailors are champions and willingly share their expertise.

The Dragon offers a great social mix with crew and helm of all ages. A number of women also own and sail the Dragon. And if older but fast is your style, we still have several classic wooden yachts in the fleet. Often there is also a chance to help keep these beauties looking beautiful!
