# Dinghy Safety

A MESSAGE FROM ROYAL FRESHWATER BAY YACHT CLUB

## The Top 10

RFBYC has a robust safety management system which is used to identify and manage all risks to sailors that may cause injury or harm on and off the water. This includes implementing the necessary prevention and mitigation measures to either eliminate or reduce risk.

The Top 10 risks for dinghy sailors at the DTC are:

- + Unexpected / Extreme Weather Conditions
- + Fatigue / Poor Fitness
- + Inadequate Sail Wear
- + Unseaworthy Dinghy
- + Dinghy Collision
- + Swinging Boom
- + Entrapment
- + Heat Stress
- + Bee Stings
- + Food Allergies

It is a shared responsibility by everyone at RFBYC to manage risk appropriately in order to provide a sailing environment that is both safe and enjoyable.

*Safety - its everyone's responsibility*
