

Dinghy Safety

A MESSAGE FROM ROYAL FRESHWATER BAY YACHT CLUB

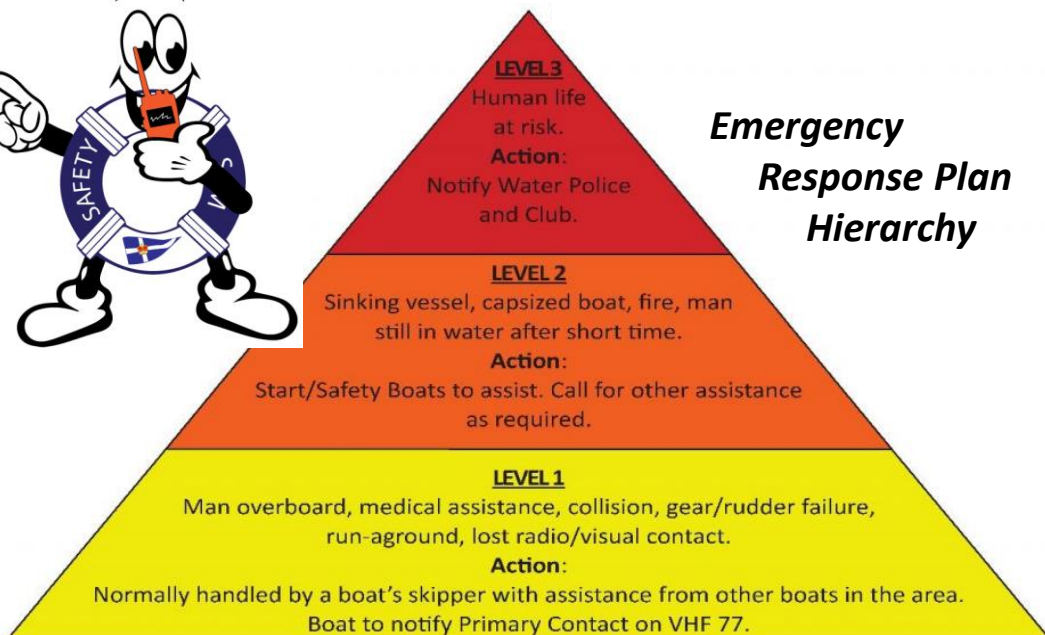

Emergency Response

RFBYC has a Risk Management Policy, which includes the Emergency Response Plan. For on-water activities, the primary contact in an emergency response is the Race Officer during competition and the Coach during training and coaching sessions. For off-water activities, the primary contact is the Dinghy Administrator or Training Centre Principal. All emergency contact details are listed on Page 2 of the Sailing Handbook however, the designated communication channel for Dinghy Racing is **VHF Channel 74** (not VHF 77 as stated).

Emergency Response Plan Hierarchy

Safety - its everyone's responsibility
