

18 December 2025

Send by email to: International Etchells Class Association etchellsoffice@gmail.com

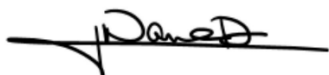

To whom it may concern,

Approval is granted under World Sailing's regulations (Policy D4) for the International Etchells Class Association to permit Organising Authorities, via the Notice of Race and in accordance with RRS 87, to amend the Class Rules to allow Mould 11 boats that have completed the approved M11 Protocol of Modifications to race as Etchells.

This approval is valid until further notice and remains in force unless and until World Sailing is provided by the IECA with justified reasons to amend or withdraw it. The permission applies only to events held in Australia and does not apply to World Championships.

The Class Rule amendments specified in the request submitted to World Sailing in relation to the IGC resolution dated 7 June 2022 concerning "Mould 11 boats" may be updated by the IECA, as necessary, to reflect any future changes approved by World Sailing to the Class Rules.

Yours sincerely

Jaime Navarro

Director of Technical and Offshore
