

RFBYC RACING

The RFBYC Division 1 Fleet is made up of predominately yachts of varying design.

Participating yachts range from the smaller Sportsboats, to the larger mixed yachts such as the larger 11m length BW36s and GP42 Blackbetty.

Division 1 yachts race together under a Performance Handicap system, where any team can feature in the results if they have a good day out.

Division One is perfectly suited to sailors of all experience levels. Skippers of yachts are able to place new crew into crew positions aligning them with their experience levels.

Upon receiving your interest in finding a place in a Division 1 team, our Fleet Captain representative will work with you to determine the best fit for you, your experience level and your desired participation frequency.
