

Dinghy Safety

A MESSAGE FROM ROYAL FRESHWATER BAY YACHT CLUB

Reporting Damage

Damaged equipment is a safety risk, and it only gets worse if it's not reported.

We're introducing a new QR code reporting system to make it quick and easy for everyone to flag issues.

What Should You Report?

- Cracks, breaks, or damage to boats
- Worn or faulty ropes, fittings, or sails
- Issues with coach boats or safety gear
- Anything that doesn't look or feel right

How to Report

- Scan the QR code (located around the club)
- Fill out the quick form
- Submit: it takes less than a minute

Why It Matters

- Keeps all sailors safe
- Prevents small issues becoming major damage
- Helps staff fix problems before the next session

"If you see it and don't report it, the next sailor finds it the hard way."

Safety - its everyone's responsibility
