Dinghy Safety

A MESSAGE FROM ROYAL FRESHWATER BAY YACHT CLUB

Construction Hazards

Construction of the new Dinghy Clubhouse has commenced and it is very important that sailors do not enter the construction site and keep outside the established barricades and fences at all times. Please be aware that there are many construction hazards, particularly trucks and other heavy vehicles travelling to and from the site and the unloading of equipment and building materials. The construction will have an impact on our day to day dinghy activities and we will have to make changes as required to ensure we are kept safe and out of harm's way. If there are any safety concerns or issues during the construction, please inform the staff or coaches.

Spot the Hazard

Assess the Risk

Make the Change

Safety - its everyone's responsibility
